- one for students enrolled in the first year of bachelor or Master degree and single cycle master courses;
- one for students enrolled in years beyond the first, of the same graduation courses.

2. Rankings will be formed according to the following criteria:

- Students enrolled in the first year of all study courses

Ranking is defined based on the correct family ISEE (Equivalent Financial Situation Index) in relation to a limit of € 30.000,00 for a maximum of 1.000 points, allocated with the following formula:

$$\left\{ 1 - \frac{\text{ISEE studente}}{30.000,00} \right\} \times 1.000$$

Ranking order is defined decreasingly, according to the assigned points. In case of equal points, students enrolled for a higher course level will prevail, in case of further parity, the grading from previous qualification will prevail, and furthermore the younger age.

- Students enrolled in years beyond the first of all study courses

Ranking order is defined decreasingly, based on a total coming from the sum of points made by number of CFUs obtained within August 10th, 2020 and the average exam grading. A total of 1.000 points can be awarded, as following: 600 based on the number of CFUs obtained and 400 based on average passed exams grading.

- Procedure for merit points calculation

Points for CFUs obtained before August 10th, 2020 are calculated according to the following formula, which is based on the average expectation of 60 CFUs for each course year (30 CFUs for part-time students):

Full time course (ex. Referred to the 2nd year):

Student CFU x 600/60

Part time course (ex. Referred to First year, 2nd enrolment):

{ student CFU X 300/30 } x 2

- points for average passed exams grading is calculated according to the following formula:

(Average student grading - 18) x 400/(30 - 18)

Rankings for connectivity incentives will be published on the University's Right to Education web page within January 31st, 2021.

- a refund of University fees for academic year 2020/2021, for the amount indicated in the ranking, if the student has already paid the due amount. Refunds will be distributed within 90 days from ranking publication;
- in case the benefit amount is higher than the due fee for the entire academic year, the exceeding amount will be treated as contribution and dispensed within 90 days from ranking publication. Please note that the provided amount is considered, according to current regulations, as income equivalent to employed work, for which the University will provide a "Certificazione Unica" (income certificate) to be inserted in tax forms or ISEE. Benefit payment will be carried out by crediting the University Enjoy Card, which must have been previously activated.

2. Benefit will consist in a fixed amount of € 125,00.
