6. RANKING PROCEDURE

The ranking list will be drawn up according to the following criteria:

6.1. STUDENTS ENROLLED IN THE FIRST YEAR OF ALL COURSES OF STUDY

The ranking is formulated based on the correct ISEE amended according to the ISEE family unit held against a limit of **€ 23.000,00** for a maximum of 1.000 allocated points with the following formula:

$$1 - \frac{\text{ISEE studente}}{\text{X 1.000}}$$

$$\left\{ \frac{\quad}{\quad} \right\}$$

The order in the ranking is determined, in descending order, according to the assigned score. Where scores are equal the student enrolled in the most advanced level of degree course takes precedence, in the case of further equality the mark relative to the degree takes precedence, and finally the lower age takes precedence.

6.2. STUDENTS ENROLLED IN SUBSEQUENT YEAR OF ALL COURSES OF STUDY

The order in the ranking is determined, in descending order, by the overall score gained from the total of the score relative to the number of CFU achieved before **10th August 2019** and of the score determined by the average mark of their exams.

The maximum number of points attributable is 1.000, distributed as follows: 600 based on the number of CFU acquired and 400 based on the average mark of passed exams.

In the case of merit scores being equal, the student who has not used the bonus takes precedence in the ranking and then the student with the highest income score. In the case of further equality, the student enrolled on the highest year of their course takes precedence, and then the youngest student.

Disabled students with a disability rating of 66% or more, if on the eligibility ranking, have the right to the allocation of a scholarship even in excess of the number of available scholarships.

NB. If a student pre-enrolled on the master's degree does not graduate from the bachelor degree, but enrolls in the first year outside the prescribed time (FUORI CORSO), they will be entered in the ranking as enrolled in the first year outside the prescribed time.

Calculation method for academic score

- The score relative to the **CFU** achieved before the **10th August 2019** is calculated according to the following formula, which takes into account the average prediction of 60 CFU for each year of the course (30 CFU for those enrolled part-time):

Full time (example refers to 2nd year):

$$\text{(Student's CFU - minimum CFU)} \times \frac{600}{(60 - \text{minimum CFU})}$$

Part time (example refers to second enrolment in first year):

$$\left\{ \text{(Student's CFU - minimum CFU)} \times \frac{300}{(30 - \text{minimum CFU})} \right\} \times 2$$

In case of use of the bonus the score relative to the CFU will be equal to zero.

- The score relative to the **average mark** of the passed exams is calculated according to the following formula:

$$\text{(Student's average mark - 18)} \times \frac{400}{(30 - 18)}$$
